

### **A Message from your Primary Care Network Core Member**

If you have not yet RSVP'd, I invite and encourage you do so for my upcoming spoke event, happening this Thursday, May 25 from 12:15pm-1:30pm at the Cellar restaurant. We will explore a new back pain program being offered by ISAEAC, as well, I plan to share with you opportunities available to primary care providers in our sub-region and together, we will discuss some of the issues and successes we experience in our day-to-day practice. I am hoping to take this opportunity to reconnect with my Halton Hills/Georgetown peers and I look forward to meeting those of you who I have not yet met.

### **Primary Care Network May Meeting Recap**

*Primary Care Advisors: Your trusted health system guide*

This month, we were joined by our team of Primary Care Advisors (PCAs). The PCAs, a team unique to our LHIN, meet one-on-one with primary care physicians to share with us valuable resources and information and assist with system navigation. The PCAs have recently started distributing a new cycle of information and your PCA, Kristen Raiskums,

would be happy to meet with you. If you'd like to meet with Kristen, please contact her at [kristen.raiskums@mh.ccac-ont.ca](mailto:kristen.raiskums@mh.ccac-ont.ca).

*Halton Healthcare Staff Categories*

As you may recall, last month we shared with you the PCN's goals for the year, one of which focused on connecting primary care providers through the Hospital. The Department of Family Medicine at Halton Healthcare offers affiliate level privileges for \$40 per year. This entitles you to: upcoming CME opportunities, updates on new outpatient services, information on new specialists and networking opportunities. For more information on other Halton Healthcare staff categories, or to inquire about applying for hospital privileges, please contact Paula Wallace at [pwallace@haltonhealthcare.com](mailto:pwallace@haltonhealthcare.com).
