

The Palliative Approach to Care in the Mississauga Halton LHIN

**Mississauga Halton
Palliative Care
Network**

Certified by the College of Family Physicians of Canada and the Ontario Chapter for up to **1 Mainpro+ credits**, this 1:1 or group learning program will provide you with valuable knowledge you need to care for your patients' with palliative care needs. Developed by the Mississauga Halton Palliative Care Network, this education piece brings together into one document palliative care best practices and local resources. Sessions are offered in 30 or 60 minute time slots, in the convenience of your own office, and may be tailored to your needs.

You Will Learn

- What is the palliative approach to care and how to incorporate it into your practice.
- How to identify patients who would benefit from a palliative approach to care.
- What advance care planning and goals of care discussions are and how to have these conversations with patients and caregivers.
- How to use assessment tools to evaluate patients' symptoms and performance.
- How to plan and manage for your patients' needs every step of the way.
- About critical secondary supports and resources available in our region.
