Practice

Primary Care Academic Detailing Service

## Now available: Opioids & Alternatives for Chronic Non-Cancer Pain

Mandip Khela  
BScPhm, ACPR, PharmD

### To sign up for a visit:

1. Speak to your primary care advisor
2. Contact Mandip Khela directly:  
**E** [mandip.khela@effectivepractice.org](mailto:mandip.khela@effectivepractice.org)  
**P** (416) 319-3644

The Centre for Effective Practice's academic detailing service is offering visits to support you in caring for your patients living with chronic non-cancer pain. During your visit, Mandip will discuss:

- Initiating conversations with your patients regarding treatment expectations
- Transitioning patients from acute to chronic pain management
- Conveying the limitations, benefits and harms of opioids to patients
- Accessing local non-pharmacological management options for your patients
- Preparing an exit strategy for opioid therapy trials
