PEM Representation: **FHO, non-FHT**

Position(s): **Board Member**

Why are you excited to be part of the MH PCN leadership team?

During several decades as a family physician in Georgetown, Ontario, I have witnessed many areas of progress and deficiency in health care in this rural small-town community. That is: 1. small town has inadequate health resources compare with big cities. 2. Very poor mental and addition health care. We have not even one psychiatrist for 8 years, after the last one passed away. 3. A large group of senior population require geriatric and palliative special needs. In view of these needs for our population, I am prepared to be the advocate for our patients, and within reasonable budget available, champion for this community.

If you were part of the MH PCN leadership team, what would be one issue you would like to champion? Why?

If I became a member of MH PCN leadership, I will present the needs, inadequacy, of health needs of Georgetown community, and hope within the budget available at the moment, champion for the population in this small town.

Do you have deep expertise in an area that you think would be valuable for the MH PCN leadership team?

I have served 5 years as President, Georgetown Medical Society, Branch of OMA, Currently Lead Physician of North Halton Hills FHO, previously served a member of Mississauga Halton PCN for two years.

Do you have any potential conflicts of interest by being involved with the MH PCN leadership team?

None.
